Utah In Review 1982

Although Utah concluded the 1981-82 fiscal year with a sizable surplus, state finances deteriorated badly during the last few months of the fiscal year. The growing national recession began to affect major state revenue sources such as the sales tax and the state income tax.

Disappointing state revenue receipts continued into the early months of the 1982-83 fiscal year. By the end of January, 1983, the sales tax and income tax receipts were $54 million below the targets set by the 1982 Legislature when it made its 1982-83 revenue estimates a year earlier.

To meet the growing financial problem in the state, the governor announced the following actions in September, 1982:

1. A 2% across-the-board cut in the 1982-83 appropriations made from the general fund and the uniform school fund.

2. An increase from 26% to 28% in the state income tax withholding rate beginning in October, 1982.

In addition to these actions, the governor also authorized the transfer of up to $30 million from the school land trust fund to the uniform school fund. It was expected that these changes would make up the revenue shortfall for 1982-83, and that the state would end the fiscal year with a small surplus.

Inflation has been a major contributing factor to the rapid rise in state revenues and expenditures during the 1970s and early 1980s. In recent months, however, there has been a decided moderation in the inflation rate. If this slowdown in inflation should continue, it probably will have the effect of holding down revenue and expenditure growth in Utah during the 1980s. Many government programs are tied directly or indirectly to changes in the cost of living index.

In addition to the adverse effect that the recession has had on general state finances, it has nearly destroyed Utah's unemployment insurance program. Benefit payments resulting from the recession depleted unemployment reserves. In order to guarantee the continuation of benefit payments in Utah, the Legislature had to be called into a special session in December to obtain authorization for the state to borrow from the federal government. Sharply higher unemployment taxes are scheduled for 1983, and some modification of benefit payment levels is likely.

Legislation enacted last year along with approval of a constitutional amendment by the voters in November will cause a shifting of the property tax burden from residential property to business property. Under the new law, which took effect in 1983, residential property will be assessed at 15% of "reasonable fair cash value," while other property is assessed at 20%. Thus, the tax burden on residential property generally will be about 25% less than the tax load on commercial, industrial, and other types of property.

Another uncertainty posed for state and local finances in Utah relates to the eventual outcome of the "new federalism" proposals. Under these proposals, responsibility for certain federal programs would be turned over to the states and a number of federal grants would be eliminated. In return, the federal government would allocate revenues from designated taxes for a limited period of time to assist in the transition. If such a program actually materializes, it would represent a sharp turn about from the trends of the past half century.

Education continues to be the number one area of public expenditures in Utah, accounting for nearly half of all state and local expenditures. Last year, state and local units in Utah spent more than $1 billion for educational purposes. This includes support for both the public schools and the publicly-supported institutions of higher education, plus operations of the State Office of Education and a number of special educational programs.

Enrollments in Utah public schools are rising very rapidly. According to the latest reports, 1982-83 fall enrollments totaled 369,338 pupils, an increase of 14,798 or 4.2% from a year earlier. Based on present trends, school enrollments in Utah could rise by another 164,000 students over the next ten years. Needless to say, such a growth in the school population during the next decade will have a substantial impact on state and local finances.

Social services, (welfare, corrections, mental health, family services, health, employment security, etc.) is another spending area that has been growing very rapidly in recent years. During fiscal 1982, expenditures for these items totaled $475.3 million, or about 29.6% of all state spending.

Transportation expenditures declined last year because of a reduction of federal grants for this purpose. Nevertheless, expenditures for transportation still are the third largest area of spending in the state, accounting for $167 million or 10.4% of total state spending in Utah last year.

NOTE: Above projections were made by Utah Foundation and are based on a U.S. Bureau of the Census study Illustrative Projections of State Populations by Age, Race, and Sex: 1975 to 2000, Series P-25, No. 796, Issued March, 1979. Data used in the Census Bureau projections were altered to reflect the actual experiences through 1982. As a result, the projections shown above are considerably higher than those contained in the Census Bureau study.

STATE TOTALS	$10,026,870,364	$73,321,490

NOTE: Detail may not add to totals because of rounding.

* Because of the delay in remitting the sales tax to the State Tax Commission, the data actually reflect business operations during the fiscal year ended June 30, 1982.

** Net local sales tax collections are amounts remitted to local units after deduction of 2.5% for administrative expenses.

*** Includes "Outside Above Municipalities" for each of the counties except Morgan County. All of Morgan County is included because there are no local unit collections.

* Excludes expenditures for administration and for social services.

** Beginning in January, 1974, money payments for old-age assistance, aid to the blind, and aid to the disabled were paid directly by the Federal Social Security Office.

Prior to fiscal 1962, medical assistance expenditures are not shown separately. Such medical expenditures are included in program expenditures for these earlier years.

Prepared by UTAH FOUNDATION from reports of the Utah Department of Social Services and Utah Department of Health.

b/ Due to inadequate local reporting, state assessment only is shown.

* Because of the overlapping boundaries of the various special districts in the state, more than one levy may apply within a municipality or school district. For example, 22 different overall mill levies are applied within Ogden City and 11 different levies are found in Salt Lake City. Actually there are 150 different taxing areas in Salt Lake County, 190 in Weber County, and 63 in Davis County. In the preceding county tabulations, the different taxing areas are designated by one or more code letters following the name of the municipality or school district. Each code letter refers to some special taxing district which imposes or is authorized to impose a levy within the district. Thus, "Weber Schools - A,B,D,J,K,ee refers to the taxing area in the Weber School District (outside of any incorporated city or town) which is in the Weber Basin Water District (A), Central Weber Sewer District (B), Ben Lomond Cemetery District (D), the Bona Vista Water District (J), the Weber County Mosquito District (K), and Weber County Fire Protection District #4 (ee). Of course, in addition to these taxing districts levies, the countywide levies for state schools and county purposes are applied in the described taxing area. In the case of Weber County only, the code letter (Z) refers to property located within the boundaries of the Central Weber Sewer District which is exempt from the tax levied by the district.
